EDUCATION

3rd	B.Sc Computer science
	Chindwara University
	7.5

PROJECTS

Food ordering website
- Created a responsive website for a food delivery service using HTML, CSS, and JavaScript. - Implemented user-friendly navigation and interactive features to enhance the customer experience.
Hotel booking website
- Developed a hotel booking platform using HTML, CSS, and jQuery. - Designed an intuitive interface for users to search, view, and book hotels with ease.
Traveling website
- Built a travel agency website utilizing HTML, CSS, and JavaScript. - Incorporated smooth animations and image galleries to showcase destinations and travel packages.

Portfolio website

- Designed and developed a personal portfolio website to showcase skills and projects.
- Utilized responsive design techniques to ensure accessibility on various devices.

School admission website

Created School Admission Website. We pride ourselves on providing a seamless and user-friendly platform for parents and students to explore and apply for admissions to various schools. With a sleek design crafted using HTML, CSS, Bootstrap, and JavaScript, navigating through the website is both intuitive and visually appealing.

FILLED PROJECT IN COLLEGE

- Computer Management System
- Description: Completed a computer science project focused on computer management, demonstrating proficiency in database management and system design.

SUMMARY

Dedicated and skilled Front-End Developer with hands-on experience in building visually appealing and responsive websites. Proficient in HTML, CSS, JavaScript, React js and Bootstrap. Strong understanding of modern web development principles and best practices. Committed to creating user-friendly and engaging web experiences.
